"This has been BY FAR the best Mastermind I have ever attended. I have had so many insights, exposed to more of my true potential and found a gear that I didn't even know existed.

In the period of time I've been working with Alex, I've built an online business with that flourished past 6 figures within the first 6 months! This then allowed me to leave my full-time corporate job. I then attracted an \$80,000 contract client.

My relationship with my wife and kids has never never been better,

I started speaking all around Australia, selling out events across Australia.

I am literally living my dreams right now as a result of the work that I've implemented with her guidance.

I could not describe the joy that is literally flourishing out of me, for my love for Alex, what she teaches, and what her life calling is - to help people like me!

If you're thinking about working with Alex Tripod, I can assure you you don't need to think any further. If you're someone who's ready to take action and willing to implement the work, and you have a desire to be bigger & better than you've ever been before, Alex is your woman, she's amazing and she knows her shit!

**- Alan Howle,
Social Media Marketer,
Speaker & Founder of 'Your Social Fire'**

Alex Tripod is an activator! That's what she does! I've had more profound shifts in the last few months working with her that I have had in my entire entrepreneurial journey before it.

*In fact, that in my ENTIRE LIFE before it!
And I've launched a successful coaching brand in 8 weeks and moved from inconsistent months to multiple 5 figure months within months of working with her!!*

So much respect and love for you woman!

Business Coach & Digital Marketer**

Since being enrolled in the Subatomic Shift mastermind and working closely with Alex my life has absolutely transformed and upgraded in so many areas.

One of my biggest shifts was resigning from the unconscious roles that I had taken on – the hustler & the people pleaser.

As soon as I resigned from these roles, everything changed. I got so aligned with who I am and as a result, I had my first 6-figure MONTH! Which to me still totally blows my mind how simple it actually was when I implement this stuff!

Online Digital Marketer

I can't begin to put into words how life changing this has been for me!

Massive internal shifts and so many energetic upgrades.

Alex, you OVER-deliver - to anyone who feels called to work with her, do it! She is an absolute game-changer!"

Kate Ruby Palmer,
Digital Marketer, Adelaide

Seriously this morning routine has changed my life, business is moving so quickly, and the most amazing people are flowing into my life, it's all happening, it's insane!

And the 3-day live event was transformational. I can't believe the difference in me already.

I manifested & purchased my family dream home for \$275,000 LESS than the original market asking price and I randomly had a \$8,500 day yesterday."
